Attached is a huge collection of moving stickers and all kinds of effects that will undoubtedly serve your work, a real décor. With the features available, you can easily and naturally add photos to the ears of animals, for example. Effects over 1,000 pieces, so you can certainly find something to your liking. You can make your eyes brighter, add Shine and more. Although I am very pleased with the possibility of imposing a huge number of effects at the same time. It is understood that dozens at the same time, probably, will not benefit your work. But here several have been applied at the same time, looks like a good topic. But you can edit not only photos, but also videos, fun effects, you can also successfully add to videos. Just satisfied with the simple interface, if it understands the features of the app, you can literally within minutes. What's more, the creators of this app regularly edit it and add new features that appear every new week, so you're sure to find something for yourself. Yourself.
