Origami fortune teller template

I'm sure we've all done these at some point (it used to be an overnight favourite). Kaitlyn, my 9-year-old, loves to make them. She makes them with puzzles on the inside (Q on the second team, A on the third team), with boyfriend questions and with future career questions. It seems like every time she makes one, she comes up with something else to write on them! If you have problems with the instructions, try reading through the instructions for origami. Materials: Instructions: Valley fold paper from corner to corner, making a triangle. Valley fold the triangle from corner to corner, making a smaller triangle. Unfold everything - you will have a square of paper with an X-curl. Fold the corner to the center of the square (where X crosses) Repeat with the other three corners. And you end up with a smaller square! Flip the paper over fold the corner to the center of the square (where X crosses) Repeat with the other three corners and you will end up with an even smaller square Fold and unfold the bottom edge of the square up to the top Fold and unfold the left edge of the square over to the right so that the folds look like an astrich over the small square This bit is easier to do than it is to do than it is to explain - basically you will slide the four corners of the square together in the middle and then slide 4 fingers into the flaps of your fortune teller, fold the folds back so that your fingers fit neatly in. You will be able to move the flaps with your fingers like small dolls. At this point, carefully print 4 things on the outside flaps (the standard is blue, red, green and yellow). Print 8 things inside flaps (the default is the numbers 1 to 8). And print 4 things under the inside flaps (the standard is fortunes like: You will get rich You will be famous You will be in love You will be glad You can color in any of the sections if you like or add stickers. To play the standard version, Kaitlyn will ask your favorite color and then flap the fortune teller open one way, then the other spell out the color (eg: B L U E) asks how many children (girlfriends) you want and then count out the number, again fluttering the fortune teller back and forth Then ask your lucky number, lift that flap and read the person's fortune. Templates: Close the template window after printing to return to this screen. Set page margins to zero if you're having trouble customizing the template on one page (FILE, PAGE SETUP, or FILE, PRINTER SETUP in most browsers). Fortune Counter Template (color) or (B&W) Printable version of these instructions Origami Butterfly Origami Sailor Hats for kids (and their dolls!) Parents, we know that you remember the countless hours spent cutting, folding and playing with your own DIY fortune tellers (also known as cootie catchers) as children! Pass on the fun of the little ones with this classic childhood activity to add a little nostalgia and spontaneity to any afternoon. Our origami fortune teller is full of activities to keep little engaged and entertained. Families can do a full day of completing the activities on which the fortune teller lands. To get your family started, just print out the template, fold it up according to our step-by-step instructions, and let the fun begin! We've also created a blank template if you and your kids want to customize with your own activities. Little ones can spend time coloring and decorating their fortune teller for bonus fun. If you choose our pre-filled template, we've also included instructions for each activity. Let's get started! How to make a Paper Fortune Teller: Step 1: Use scissors to cut along the boundary of the template (empty or pre-filled), so that with a square shaped piece of paper. Step 2: Fold the top right corner into the bottom left corner to create a triangle shape. Fold the edge and fold it out again. Repeat with the other side. You should have an X shape with folds. Step 3: Fold the paper in half, fold the edge and fold it again to the original square. Rotate it 90 degrees, then fold it again, fold the edge and fold it. There should be four intersecting lines on paper now. Step 4: Take each corner to the center of the paper and fold the fold. Now you should have a mini square with all corners meeting in the middle. Turn the smaller square paper. Step 5: Fold each corner to the middle again. You will again have a square shape. The numbers should be facing you! Step 6: Fold the fortune teller in half so that the numbers face in and square flaps are on the outside. Slide your thumb and index fingers under the squares to operate the fortune teller. How to use origami paper fortune counter: step 1: The little one should choose one of the colors listed on the square. For what color they choose, spell the word out loud while opening and close the fortune teller with each letter. For example, if they select the green square, spell the five letters G-R-E-E-N high, and open and close the fortune teller 5 times. Step 2: Now your child should choose one of the numbers that appear on the inside of the fortune teller. Open and close the fortune teller while counting to that number. Step 3: Get your little one to choose a different number. This time, unfold the flap to reveal a summer activity! Pre-filled template activity ideas: 1. Bookworm Come back to your PJs and enjoy spending the afternoon reading your favorite books. Did you know that Radio Flyer wagons are the perfect book hook? Just add pillows and blankets to create your own reading oasis. 2. Snail mail There are so many ways to connect with loved ones online, but nothing beats getting a handwritten letter. Decorate one of our 4 printable cards for children and let the little ones decide who is the lucky recipient! 3. Research amazing With a parent's help and supervision, children should use internet or library books to examine their favorite animals. When they are a on their chosen creature, they can share their new knowledge by writing a story about the animal, coloring pictures of it in their habitat, or calling a parent to tell them what they learned. 4. Water day Whether you live near a beach, a sprinkler system in the park, or have a hose in the backyard, grab some sunglasses and enjoy the day in the sun. Upload a classic red carriage with water balloons or play any of our Camp Radio Flyer Water Day activities. 5. Write a story This activity is perfect for older children and young people. Depending on the child's level, they can write a story themselves or a parent can act as a printer as the child verbalizes their story. Don't forget the illustrations! It is sure to be laughing during reading aloud at the end. Here's a quick to get your imagination going: The magician pulled the wand out of the bag... 6. Indoor fort There are endless options when creating the ultimate indoor fort. Start with something high, like a table, sofas or even two scooters. Then drape carpets or curtains over each end of the fort to make a cocoon. Now it's time for decoration! Fill the fort with pillows, blankets, books, color supplies, or even hang string lights (with a parent's help, of course). 7. Unlock your inner artist! Break out watercolors, finger paint and stickers for an afternoon of imaginative creation. Need a place to start? Print these 3 Paper Doll templates for a day of quiet coloring and interactive play or try 8. Picnic Upload your stroller with snacks, cool drinks and games to enjoy when you arrive at your destination. Try one of our 5 ways to mix up picnics for a new twist on a classic favorite. Mini Eco Create your own custom cootie catcher with an empty printable. Once you have downloaded, printed and folded the craft, you can write in fortunes, puzzles, games or your choice of message inside. Customizable Origami Fortune Teller Can be printed from Mini Eco Free Retro Paper Fortune Teller Templates With so many toys and games for kids around these days, it's easy to forget the simple pastimes of our own childhood created using things that we find around our homes. One of our favorites was Paper Fortune Tellers. To make these at home, all that was needed was one blank sheet and with a little practice you would make your own game at a short time. Oh, strange in taking a very boring sheet of blank paper and turning it into a game that moves like it's manipulated skillfully your hand. And there are fortunes or challenges hidden inside too - do we need to say more? While there are many variations of this game, we have always put in challenges inside fortune tellers who made too much fun when playing with friends during the school holidays. So, to bring back some old-fashioned fun here at Vintage Toys we've produced our own Paper Fortune Teller Templates for you to print at home and do - choose from our kids' Challenges version, or if you prefer to add own fortunes inside we have an empty version too ... maybe it will tell you your future? What you need: 1 sheet of blank A4 paper A printer Instructions: First of all, you need to print the Paper Fortune Teller template. Find the templates below - you can choose between Paper Fortune Teller - Blank inside or if you prefer that we have a Paper Fortune Teller with challenges already made up for you ready to go. Paper Fortune Tellers are easy when you get the hang of making them. But what do you do with your printout to make it a game? Half the fun is to make these, so here's a handy printable guide if you need some help at home: 1. Starting with the printing out, you need to turn the A4 sheet into a square. Use the instructions above to get started. 2. When you have square paper, you are ready to get started. Place the paper square face down so that the blank side faces you. Start by folding all four corners into the middle so that they all meet in the center. 3. Now you need to turn the fortune teller and do the same again - fold all four corners into the middle. Once you've done this, you should have something that looks like this: 4. Almost there! Now you just need to get your fingers under the colored flaps and you're ready to go! How to play: Two or more people can play with Paper Fortune Tellers. Here's the lowdown on how to play: A person should put their fingers under the color flaps while the challenger should choose a color from the four spotty color schemes. If yellow is selected, then spell out the word Yellow as you manipulate fortune teller. Now the challenger must select a number from the available selections. If the number 5 is selected, manipulate the fortune teller five times. Choose a different number and manipulate the fortune teller again. For the third time, the challenger must choose a final number - they will then look under the flap on this number where there is a challenge waiting for them! See our guide on how to play on Youtube: Free templates to print
